

As part of your international program you will be asked to produce a short blog/vlog reflecting on your experience. This blog/vlog will be kept on the NSCC International website (nscC.ca/international) and will exist as documentation of your international learning that you can use as a digital portfolio piece. When submitting your blog/vlog please remember to follow these guidelines:

- Keep it short and concise (a couple of paragraphs for a blog or 1-2 minutes for a vlog);
- Be respectful of your audience and remember you are representing NSCC;
- All blogs must be signed by the contributor;
- NSCC International will not be editing the blog before posting but will be checking to ensure all content is appropriate;
- All vlogs should be submitted through a forum in which the video can be downloaded (Google Drive, Dropbox, Streams etc.);
- Ensure you have permission to use images/names of others.

Content:

- Keep the content light and fun and keep in mind a future employer could be reading/watching;
- Include a relevant photo of yourself participating in the program;
- You can include information about one day, one activity or a reflection of the whole experience.

Guiding Questions:

1. What skills have I gained through this experience which will help me be successful in future education/career goals?
2. What surprised me as either being very different or similar to Nova Scotia?
3. How has participating in this opportunity changed me personally and/or professionally?

Please send your blog/vlog to international@nscC.ca when completed
